我选择去英国留学，而不是美国、澳大利亚等其他国家，主要基于以下原因：英国社会整体治安良好，对国际学生包容度高；而且英国教育体系非常注重批判性思维和独立研究能力，这与我的学习风格高度契合/给予我学习方法上的优化与补充。相比之下，我以往的学习经历偏重理论记忆，我希望通过英国的教育方式，提升自己分析复杂问题和独立完成项目的的能力。

我选择申请 南京航空航天大学（NUAA）与伦敦大学伯贝克学院（Birkbeck, University of London）的联合项目，是因为它具备两个独特优势：第一，该项目提供计算机科学与技术专业（或：该项目提供法学（人工智能法方向）专业），这种课程设置在国内外高校中非常具有特色；第二，伯贝克学院位于伦敦市中心，紧邻众多科技公司（或：法律机构），便于我接触行业前沿、寻找实习机会。这些因素对我未来的职业发展非常有利。

该项目将帮助我实现职业目标，具体体现在：

（如果申请计算机专业）将为我打下扎实的技术基础，使我回国后能在（目标行业，如互联网企业、软件开发、人工智能技术研发等）中快速适应岗位要求。

（如果申请法学专业/人工智能法方向）将使我掌握人工智能领域的法律规范与治理知识，

为我回国后进入（目标行业，如科技公司法务部、数据监管机构、人工智能合规治理等）提供专业优势。

在学习方面，我一直是一个（请描述您的学习风格，例如“喜欢通过项目实践或案例分析来学习”）的人。我对 计算机科学与技术（或：法学/人工智能法）的兴趣源于（请简要描述一次经历，例如“本科课程中的某个项目”或“实习中遇到的实际问题”）。我认为，NUAA 在计算机科学方面的扎实工科基础，与 Birkbeck 在（根据专业填写：计算机科学/法学）方面的专长相结合，将为我提供独特的跨学科视角，使我未来回国后在（目标行业）中具备更强的竞争力。

I chose to study in the UK rather than other countries such as the United States or Australia mainly because the UK offers a safe and welcoming environment for international students, and its education system strongly emphasizes critical thinking and independent research skills, which closely match my learning style/ is a good upgrade and complement for my learning methods. In contrast, my previous studies were more theory-oriented, and I believe that the UK approach will help me become better at analyzing complex problems and completing independent projects.

I chose to apply for the joint program between Nanjing University of Aeronautics and Astronautics (NUAA) and Birkbeck, University of London because of two unique advantages. First, the program offers a degree in Computer Science and Technology (or: the program offers a degree in Law with a focus on AI law), a curriculum structure that is highly distinctive among Chinese universities. Second, Birkbeck's location in central London, close to numerous tech companies (or: legal institutions), provides excellent access to industry frontiers and internship opportunities. These factors are highly beneficial for my future career development.

This program will help me achieve my career goals in the following ways:

(If applying for Computer Science) will give me a solid technical foundation, enabling me to quickly adapt to job requirements in（target industry, e.g., internet enterprises, software development, AI technology R&D, etc.）after returning to China.

(If applying for Law / AI Law direction) will equip me with knowledge of legal frameworks and governance in the AI field, providing me with a professional advantage to work in（target industry, e.g., legal department of a tech company, data regulatory authority, AI compliance governance, etc.）after returning to China.

In terms of my learning approach, I have always been（please describe your learning style, e.g., “someone who prefers to learn through projects or case studies”）. My interest in Computer Science and Technology (or: Law / AI Law) grew from（briefly describe an experience, e.g., “a project during my undergraduate studies” or “a practical issue encountered during an internship”）. I believe that NUAA's strong engineering foundation in computer science,

combined with Birkbeck's expertise in (choose one: computer science / law), will provide me with a unique interdisciplinary perspective, making me significantly more competitive in (target industry) after I return to China.

3. 完成课程后的收益 / Benefits of Completing the Course

这一段要说明：

- 您学成回国后，在国内的就业优势是什么（可以写国内对海归的需求、薪资预期、岗位晋升速度等）。
- 强调您的英国学历如何帮助您更快达到您的职业目标。

In this section, you need to explain:

- What your employment advantages will be after returning to China (you may include domestic demand for returnees, salary expectations, career progression speed, etc.).
- Emphasize how your UK degree will help you reach your career goals more quickly.

中文模板

国内对（您所在领域）的海归人才需求较大，尤其欢迎有海外学习经历、英语能力强、熟悉国际标准的人才。根据行业了解，在国内（城市类型，如一线城市），普通国内毕业生的起薪约为（数字，例如 6,000 - 8,000 元/月），而海归毕业生（尤其是英国实践型院校毕业的）起薪通常可达（数字，例如 12,000 - 20,000 元/月）。在岗位晋升方面，国内毕业生通常需要（数字，例如 5 - 7 年）才能进入管理岗位，而具有国际背景的海归往往只需（数字，例如 2 - 4 年）。

我的英国学历将帮助我更快实现职业目标，因为：

- 英国教育注重（具体能力，如批判性思维、独立研究、实践项目），这使我能够更快适应国内企业的高标准要求；
- 我在英国学习的（具体课程或技能）将直接应用于回国后的（目标职位），缩短入职后的学习曲线；
- 英国院校与行业的紧密联系为我提供了（如实习、项目经验），这些经历在国内求职时具有明显的竞争优势。

There is strong domestic demand for returnees in (your field), especially those with overseas study experience, strong English skills, and knowledge of international standards. Based on industry knowledge, in (e.g., first-tier cities in China), the starting salary for domestic graduates is approximately (e.g., RMB 6,000 - 8,000 per month), while returnees (especially from UK universities with a practical focus) can typically expect (e.g., RMB 12,000 - 20,000 per month). In terms of career progression, domestic graduates usually need (e.g., 5 - 7 years) to reach management positions, whereas returnees with an international background often achieve this within (e.g., 2 - 4 years).

My UK degree will help me achieve my career goals faster because:

- UK education emphasizes (specific abilities, e.g., critical thinking, independent research, practical projects), enabling me to quickly adapt to the high standards of domestic employers;
- The specific courses or skills I gain in the UK, such as (course or skill name), will be directly applicable to my target role in China, shortening my learning curve after employment;
- The strong industry links of UK universities have provided me with (e.g., internships or project experience), which give me a clear competitive advantage when seeking jobs in China.
